RETREAT AT ARC WAY

ATLANTA, GA

AN INSTITUTIONAL QUALITY VALUE-ADD INVESTMENT
WITHIN ASHCROFT VALUE-ADD FUND II

Retreat at Arc Way

INVESTMENT SUMMARY

Ashcroft Capital has identified Retreat at Arc Way (the "Property" or "Retreat") as the first acquisition within the Ashcroft Value-Add Fund II. Retreat at Arc Way is a **100% off-market transaction.** Ashcroft has acquired two properties (Macarthur Place & Estancia) from the same owner as Retreat and has direct knowledge of both the operational and renovation upside opportunities that can be capitalized on. Over the course of a 28 month hold period at Estancia, Ashcroft was able to increase NOI by **75%** and deliver a **34.1% IRR** to investors. Additionally, Ashcroft has grown NOI at Macarthur Place by **40%** since acquisition in 2019, with substantial upside still remaining.

Retreat at Arc Way will mark Ashcroft's **5th** acquisition in Atlanta since entering the market in 2021. Ashcroft is committed to scaling its Atlanta portfolio to take advantage of the rapid economic expansion taking place across the entire MSA.

Retreat at Arc Way is a 284-unit property located in the Norcross submarket of Atlanta, GA. Norcross is located in Gwinnett County and is regarded as one of the fastest growing submarkets in Atlanta due to its close proximity to many Atlanta's largest employment centers and top rated rated school districts. The Property is located in the heart of Atlanta's I-85 industrial corridor, which is one of the largest industrial hubs in the southeast and one of the main employment nodes in Atlanta. Additionally, Norcross offers easy access to other major employment centers such as Peachtree Corners, Sugarloaf, Buckhead, Sandy Springs, and Perimeter Center.

Norcross's multifamily market fundamentals continued to grow at historic rate in 2021. Rents reached new record highs in both average asking and annual rent growth rates during 2021. **Rents in Norcross increased by 22% in 2021**[1] (compared to the national average of 11.0%[3]) and the **average occupancy in the submarket has increased to an all time high of 96.8%**[1] With high projected population growth, average household incomes exceeding **$62,000**[1] in most parts of the submarket, and other strong employment fundamentals, the Norcross multifamily market is positioned to continue to grow for many years to come.

Retreat at Arc Way is a well-located property that offers significant upside through unit interior renovations, amenity upgrades, and improving operational efficiency. The Property was built in 1986 and has an excellent mix of one, two, and three-bedroom units.

Current ownership has been primarily focused on maintaining high occupancy and addressing major capital items over the last few years, inherently missing out on the rent growth momentum the Norcross submarket has experienced. Ashcroft has the immediate opportunity to bring current rents to market levels as well as renovate units to a high end renovation scope. Ashcroft has also identified several additional revenue generating opportunities such as leasing washer/dryer sets to residents and implementing a package locker fee.

Retreat at Arc Way

INVESTMENT SUMMARY

Having purchased two deals in the past from the seller, Ashcroft is very familiar with the value-add and operational upside that they leave on the table. The current owner maintains a business plan that focuses on low rents, high occupancy, and addressing major capital expenses. This leaves Ashcroft with a great opportunity to focus on implementing a full scale interior value-add program and improving operational efficiency.

Retreat at Arc Way is in great condition; However, thoughtful capital spending can significantly improve the Property. The business plan includes several projects such as painting the Property and improving the curb appeal. In order to fully reposition the Property, the amenities and common areas are expected to be fully upgraded as well. The clubhouse, fitness center, pool areas, and other amenities are expected to significantly be improved to further elevate the overall quality of the Property.

The current owner has only renovated **27% of the units** at the Property, which provides Ashcroft the opportunity to bring the **remaining 73% of units** to a luxury level in order to be more competitive with several renovated and newer properties in the area. Ashcroft plans on upgrading the units to include wood-style flooring, quartz countertops with an undermount sink, stainless-steel appliances, subway tile backsplash, painted cabinet fronts, updated fixtures & hardware, and a modern lighting package. Renovated rents at the Property are projected to still be below the immediate comp set leaving further room for upside. Additionally, Ashcroft plans on charging residents for Washer/Dryers sets, adding a valet trash fee, and implementing a package locker fee.

All capital projects will be overseen by Ashcroft's in-house construction team, Birchstone Construction. Ashcroft's in-house property management company, Birchstone Residential, will be executing the business plan upon takeover.

Retreat at Arc Way

INVESTMENT SUMMARY

BUSINESS PLAN

1. **Enhanced Unit Renovation**
    i. Unit interiors are inferior compared to surrounding competition. Ashcroft will renovate and modernize the property to be more competitive with properties in the area by investing an average of approximately $8,800/unit on interior renovations over the next 24 months.
    ii. Rents at the Property are expected to increase by an average of approximately $479/mo as a result of both the renovations and increasing the rents to current market levels.
2. **Exterior and Common Area Capital Improvements**
    i. Ashcroft plans to further elevate the quality of the Property by improving and modernizing the existing amenities to create a better living experience for residents. All construction will be overseen by Ashcroft's in-house team, Birchstone Construction.
    ii. The business plan at the Property includes: (i) repainting the property, (ii) updating the amenity and common areas,, (iii) addressing minor deferred maintenance, and (iv) improving the curb appeal, landscaping, and signage.
    iii. Ashcroft anticipates reserving funds for Capital Improvements such as roof repairs and other deferred maintenance to preserve the Property.
3. **Operational Improvement and Repositioning**
    i. Upon the takeover of Retreat at Arc Way, the Partnership will retain Ashcroft's in-house property management team, Birchstone Residential ("Birchstone"), to manage the Property. Birchstone will bring a modern, best-in-class approach to tighten operations and improve resident retention, which will increase performance of the asset throughout the hold period. Through a successful implementation of the business plan, Retreat at Arc Way will be repositioned into one of the most desirable communities in the area.
    ii. Ashcroft and Birchstone have identified several areas to improve operations and increase revenue. Based on market research, it is the belief that rents at the Property are significantly below market. Ashcroft and Birchstone plan to immediately bring rents to a market level in order to increase income. Additionally, we will begin to charge residents for washer/dryer sets and implement a monthly package locker fee.
4. **Private Loan Providing Maximum Flexibility**
    i. Based on the projected cash flow, Ashcroft will pursue a 75% LTV initial loan from a private lender. The initial term will be 3 years with two one-year extension options. This loan will provide investors with maximum flexibility by allowing for a capital event. Additionally, Ashcroft will be purchasing an interest rate cap to further mitigate risk on increases in interest rates.
    ii. As NOI grows over year 1 and 2 through the repositioning of the asset, Ashcroft will explore refinancing with a longer term fixed-rate loan. Although this has not been modeled into projections, Ashcroft plans to focus on a refinance that could return significant equity to the investors.
5. **Exit Strategy**
    i. Ashcroft will seek a disposition in approximately 5 years.

MARKET OVERVIEW & COMPARABLE ANALYSIS

Retreat at Arc Way

NORCROSS, GA

Home to one of the metro's larger industrial nodes, Norcross has become a top distribution and manufacturing hub in Atlanta.[1] Several major corporations maintain headquarters or regional operations in the submarket, helping drive strong demand for multifamily product. Mitsubishi Electric, HP (Hewlett-Packard), Comcast, Asbury Automotive, and agricultural equipment manufacturer AGCO Corporation all have global headquarters in Norcross. Additionally, over the last few years, Amazon has opened several state-of-the-art distribution and Prime Now hubs in the submarket creating thousands of new high paying jobs.

Norcross is located less than 5-minutes from I-285 & I-85 which offer residents easy access to other major centers of employment and entertainment such as Sandy Springs, Peachtree Corners, Buckhead, and Perimeter Center.

Major Demand Drivers

I-85 Industrial Corridor: One of the biggest employment hubs in Atlanta, the corridor contains over 150M SF of industrial space ranging from large global distribution centers to e-commerce facilities. Companies such as Amazon, Suzuki, Mitsubishi, Comcast, and HP all have a major presence in the corridor.

Gateway 85: The Gateway 85 Community Improvement District is the single largest of its kind in the state of Georgia. Gateway 85 consists of more than 30 MSF of industrial, 5.7 MSF of retail space, 2.1 MSF of office space, and supports more than 15,000 jobs.

Perimeter Center: Perimeter Center has 36 million SF of office space and is one of the largest employment centers in the Southeast. This premier office submarket contains multiple global and regional headquarters including Mercedes-Benz USA, UPS, Vertiv, and Westrock. Perimeter Center is also home to one of the most comprehensive and concentrated medical facilities in the country nicknamed “Pill Hill”, which is made up of three major hospitals and hundreds of medical practices.

Peachtree Corners: Peachtree Corners is Gwinnett County’s newest city, incorporated in 2005 and founded in 2012. Peachtree Corners now boasts over 43,000 residents and is over 17 square miles. Some of the major employers that have a presence here are FedEx, Siemens, and Immucor. Additionally, Peachtree Corners is home to The Curiosity Lab, a 500-acre technology park that features a 5G-enabled 3-mile autonomous vehicle test track and smart city lab.

VALUE-ADD

FUND 2

AVAF2

FUND OVERVIEW

- **Target Properties: 6-10 Assets**
- **Anticipated Life of Fund: 5 to 7 years**
- **Minimum Investment: $25,000**

INVESTMENT CRITERIA

- Communities located in the growth markets of the Sun Belt including Dallas-Fort Worth, Atlanta, Orlando, Tampa, Jacksonville, Raleigh/Durham, Charlotte, and Phoenix
- Class A/B properties with excellent opportunity for value creation through improvements
- Underperforming or distressed multifamily properties
- 200+ unit assets in highly desirable submarkets
- $20 million to $150 million total capitalization per property

In an effort to continue our focus on capital preservation and further mitigate risk while still having upside potential, we have launched the **Ashcroft Value-Add Fund II ("AVAF2").** This investment vehicle has been created with one singular purpose in mind: to reduce our investors' risk. AVAF2 will continue to use the same conservative business plan Ashcroft was founded with, acquiring quality multifamily assets, offering value-add opportunity in strong performing markets throughout the country.

Coupon Amounts:

Two-Tiered Return Structure: Investors have the opportunity to invest in Class A and/or Class B Limited Partnership Interests.

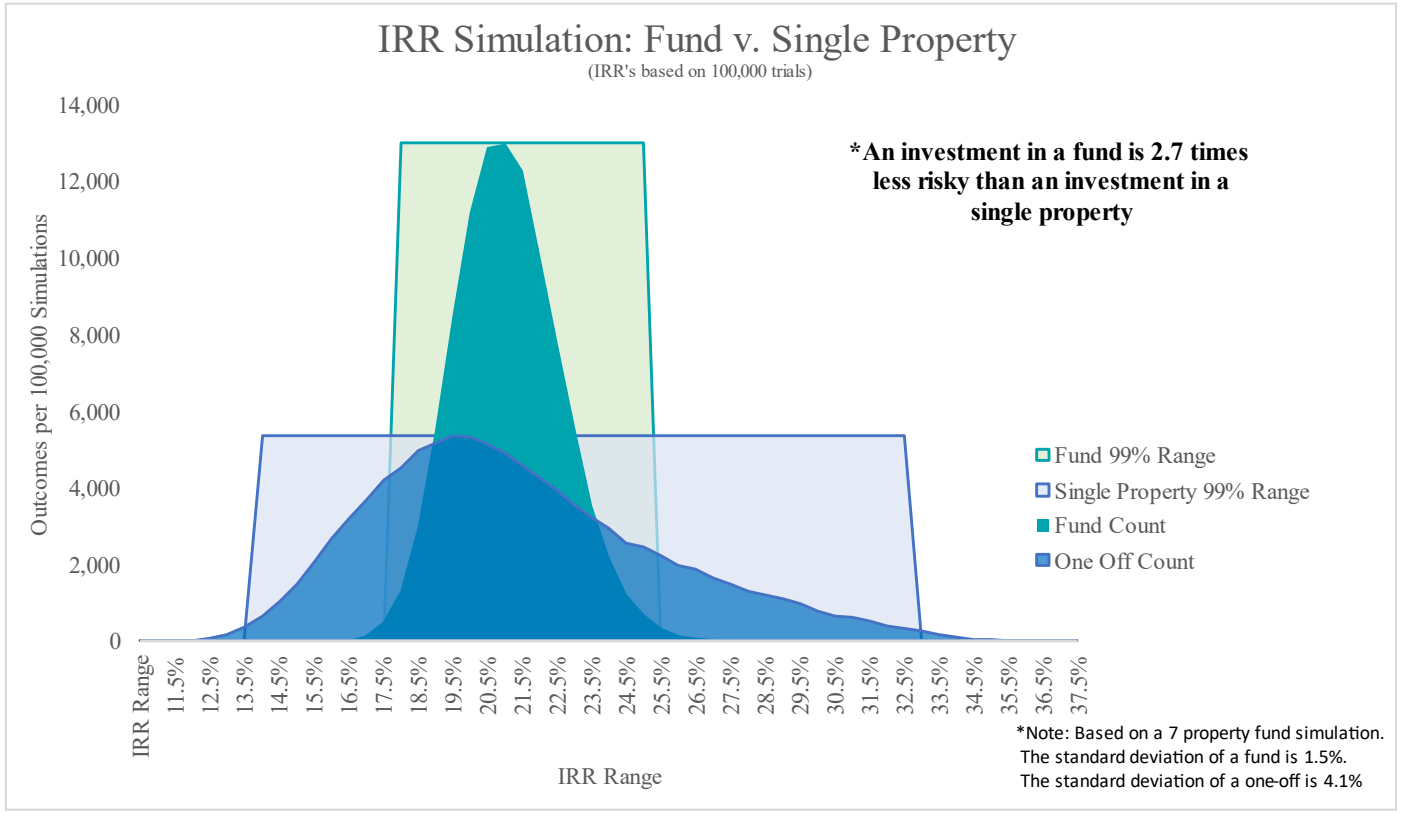

Limited Partner (A) - Class A: Class A Limited Partner's earn a coupon of 9% per annum of such Limited Partner's investment in the Partnership (the "Class A Coupon"). Class A Limited Partners have limited distributions upon disposition of the Property. This tier offers stronger projected cash flow and reduced risk as compared to Class B Limited Partners.

Limited Partner (B) – Class B: Class B Limited Partners earn a coupon of 7% per annum of such Limited Partner's investment in the Partnership (the "Class B Coupon"). Upon the disposition of the Property, after payment of debt, return of Class A and Class B Limited Partner investments, payment of any unpaid Class A and Class B Coupon amounts, and then, pro rata, seventy percent (70%) to the Class B Limited Partners and thirty percent (30%) to the General Partner until such time as the Class B Limited Partners have received a cumulative amount equal to thirteen percent (13%) IRR. Then, Class B Limited Partners will receive 50% of the remaining proceeds from disposition. This tier has a lower coupon but provides greater participation upon disposition or capital event compared Class A Limited Partners.

AVAF2

BENEFITS OF INVESTING IN A FUND

- Spreads out investor equity over multiple acquisitions
- Greater exposure to investments in various markets and asset classes
- Ability to invest in different individual property business plans and hold periods
- Provides the opportunity to participate in upside on property price appreciation upon sale, refinances, and supplemental loans
- Diversification offers the ability to reduce risks while offering the potential for higher returns
- Potential tax benefits for investors such as pass through depreciation opportunities and tax deferred exchanges

This chart illustrates the rewards of diversification by investing in a fund versus a single property investment, we decided to model a simulation of each. One half of the model demonstrates the returns of a single investment with randomly generated annual returns and IRR's that are within range of Ashcroft's historical returns. The other half of the model incorporated an identical set of parameters, but pools the returns of 7 properties together into a fund. We then ran a simulation for each circumstance 100,000 times. Under these parameters, the results show that a single property investment has a standard deviation that is 2.7 times greater than investing in a fund.

**The diversification of a fund leads to reduced volatility. However, there are other risks to take into consideration that are outlined in detail in the private placement memorandum that may affect the overall performance of the fund*

AVAF2

TARGETED RETURNS

Similar to previous Ashcroft investments, AVAF2 will continue to take a disciplined investment approach that focuses on targeting high-quality, well-located properties. We aim to identify assets in markets with strong multifamily fundamentals, employment growth, population growth, and other key demand drivers. The Fund has a targeted investment focus on well-located properties in Texas, Florida, Georgia, North Carolina, and other markets where thoughtful capital improvements and operational efficiencies can create significant value. All of the properties that we expect to acquire will have value-add opportunities that include the ability to reposition the property through capital improvements and upgrades, renovating the interior units, improving operations, decreasing expenses, and creating other revenue generating projects. Every property has a unique business plan that is formulated with input from all aspects of the company in order to maximize investor returns while carefully focusing on preserving investors' capital.

Target Fund Returns*

Cash-On Cash Returns (Avg including sale)
13.0% to 20.0%

Cash-On Cash Returns (Avg excluding sale)
6.8% to 8.5%

Levered IRR (Net)

AVAF2

Investment Approach

- Ashcroft seeks to identify assets in markets with strong multifamily fundamentals, employment growth, population growth, and other key demand drivers.
- Value-add characteristics allow for repositioning assets through capital improvements, renovation of unit interiors, operational improvements, expense reductions, and implementation of incremental revenue generating amenities.
- Currently invested in 5 markets and actively evaluating opportunities in additional sunbelt markets noted below.

Acquisition Criteria[1]

- Properties located in high-growth markets of the Sun Belt
- Class A/B communities with strong value-add opportunity remaining
- Underperforming multifamily properties
- 200 to 1,000-unit assets
- $20 million to $200 million total capitalization for single properties
- Up to $1+ billion for portfolios
- Preference towards free & clear of debt

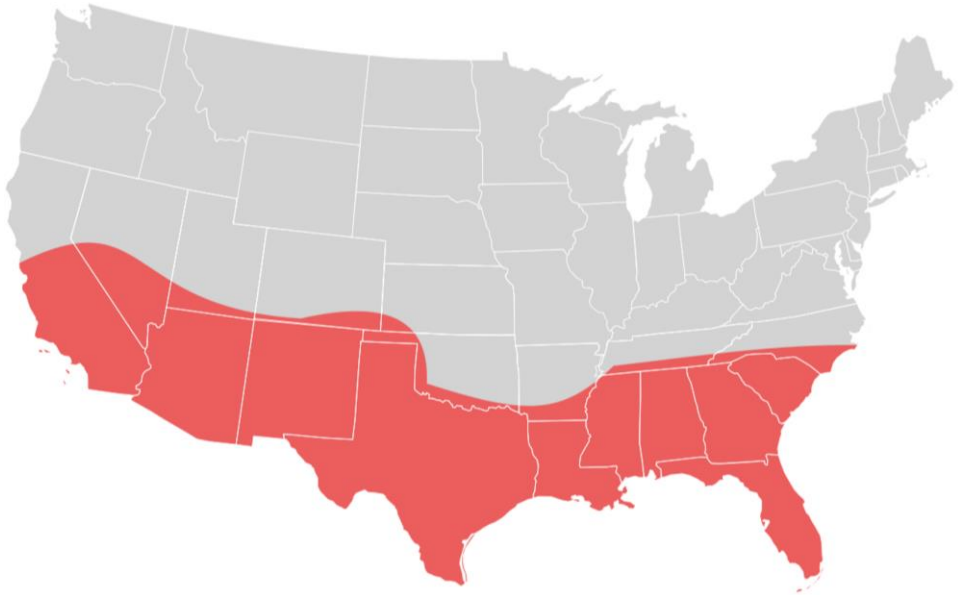

[1] As market conditions warrant, Ashcroft may modify these strategies, including the acquisition criteria, or undertake new strategies.

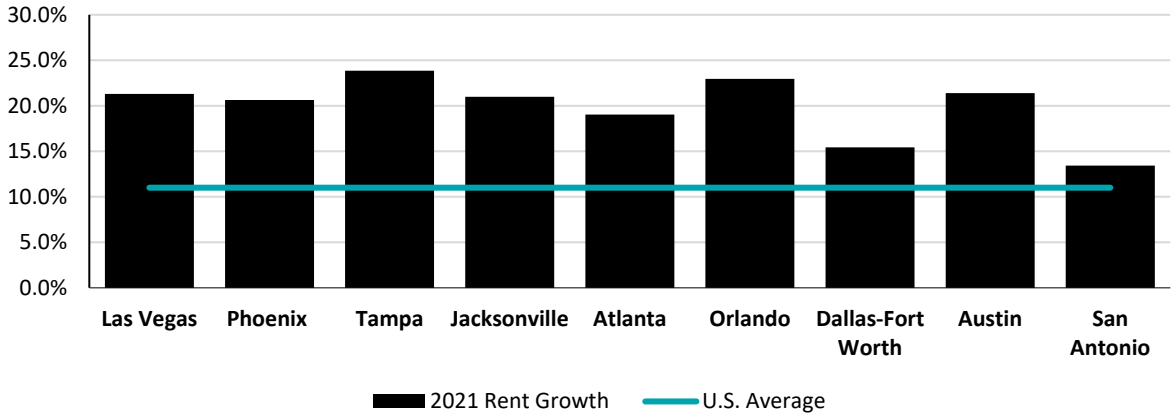

AVAF2

WHY THE SUNBELT MARKET?

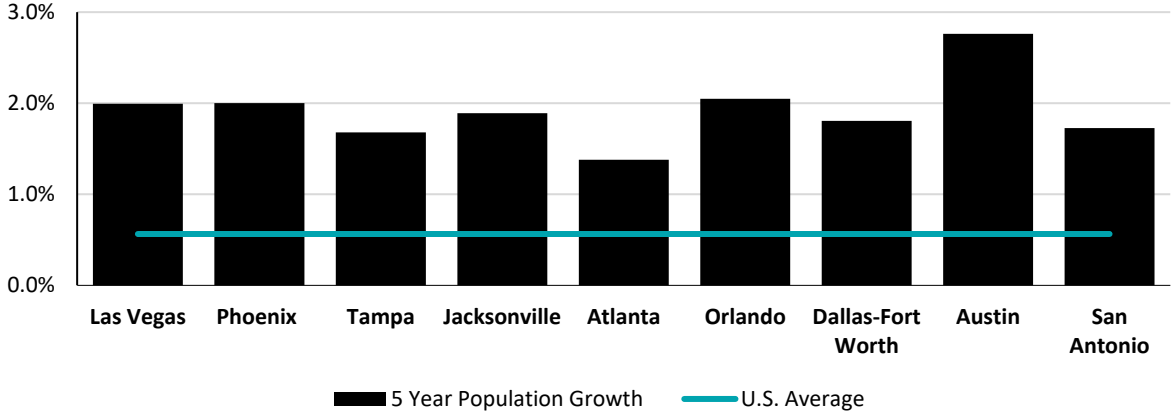

- The average population growth in the major Sun Belt markets has outpaced the U.S. Average by nearly double in the last five-years. The top seven metropolitan areas for population growth in 2020 were all in the greater Sun Belt region.[2]
- Over the next decade, the Sun Belt population growth is expected to accelerate by another 19 million (+13%), whereas non-Sun Belt states are forecasted to rise by only 3 million (+2%).[3]
- Due to friendly tax environments, individuals and businesses are motivated by the greater economic opportunity and affordability throughout the Sun Belt region. As seen by the relocation and expansion by major companies like; Tesla, Oracle, JetBlue Airways, Toyota, Apple and Amazon.[4]
- The rapid population and job growth has created strong demand for multifamily housing as evidenced by the strong rent growth across major Sun Belt metros (see chart to right).

The information contained in this Presentation shall not constitute an offer to sell or the solicitation of an offer to buy securities. The Presentation is intended to be of general interest only and does not constitute or set forth professional opinions or advice. The information in this Presentation is speculative and may or may not be accurate. Actual information and results may differ materially from those stated in this Presentation. The Company and its respective affiliates make no representations or warranties which respect to the accuracy of the whole or any part of this Presentation and disclaims all such representations and warranties. Some of the data and industry information used in the preparation of this Presentation (and on which the Presentation is based) was published by third-party sources and has not been independently verified, validated, or audited. Neither the Company nor its principals, employees, or agents shall be liable to any user of this Presentation or to any other person or entity for the truthfulness or accuracy of information contained in this Presentation or for any errors or omissions in its content, regardless of the cause of such inaccuracy, error, or omission. Furthermore, the Company, its affiliates, principals, employees, or agents accept no liability and disclaim all responsibility for the consequences of any user of this Presentation or anyone else acting, or refraining to act, in reliance on the information contained in this Presentation or for any decision based on it, or for any actual, consequential, special, incidental, or punitive damages to any person or entity for any matter relating to this Presentation even if advised of the possibility of such damages.

This Presentation contains forward-looking statements within the meaning of United States federal and state securities laws. Forward-looking statements express the Company's expectations or predictions of future events or results. They are not guarantees and are subject to many risks and uncertainties. There are a number of factors beyond the Company's control that could cause actual events or results to be significantly different from those described in the forward-looking statements. Any or all of the forward-looking statements in this Presentation or in any other statements the Company makes may turn out to be wrong and should not be regarded as a representation by the Company or any other person that its objectives, future results, levels of activity, performance or plans will be achieved. Except as required by applicable law, the Company does not intend to publicly update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

Targeted or projected IRR or similar projections or yields of any kind (whether gross or net) is provided as an indicator as to how the general partner of the Company intends to manage the Company and are not intended to be viewed as indicators of likely performance returns to investors. There can be no assurance that any such targeted IRR set forth herein will be attained, and actual results may be significantly different from the targeted IRR. General economic factors, political changes, legal and regulatory requirements, changes in the markets or real estate risks, competition, and consumer preferences, all of which are not predictable, can have a material effect on the reliability of targeted IRR. Furthermore, for future actual results to be consistent with any targeted IRR (and regardless there can be no guarantee), a number of factors and assumptions must prove correct.

The Class B Limited Partners projected annual returns are based on proforma cash flows, the Class B coupon amount, and projected distributions based upon operations and projected disposition of investment asset. The Class B coupon remains 7% per annum of investors capital contribution which shall accrue until distribution by the general partner of the Company in its sole discretion.
